MSW, RSW

# Support clients who are trans, Two-Spirit, non-binary, and/or gender-diverse.

AN EVIDENCE-BASED,  
INTERSECTIONAL TRANS FEMINIST,  
AND COMMUNITY GROUNDED  
APPROACH TO GENDER-AFFIRMING  
CARE

## Learning Objectives:

Through participating in this training learners will:

- Understand key terminology that is vital to creating a culture of respect
- Recognize how decolonizing and anti-racist practice can support breaking down the gender-binary
- Deepen their understanding of what it means to Indigenize their professional practice
- Understand the role of residential schools in fostering homophobia and transphobia in Indigenous communities
- Build confidence in themselves and their practice through better understanding implicit bias, how to address it, and how to repair a relationship after making mistakes
- Feel more prepared to respond to ethical dilemmas and build clinical skills through using case studies and small group work. Note that case studies will be tailored to individual counselling/care, group work / facilitation, and program development / policy
- Acquire skills for working with families of trans youth
- Gain an understanding of the history of gender-affirming care and the pathologization of trans, Two-Spirit and gender-diverse people and how this impacts care today
- Debunk myths about gender-affirming care
